Production Incident - The New Order menu preview got into production

Enviornment: Production

The problem: The New Order menu preview got into production.

The short term fix: Disable the new order menu preview

The long term fix: Add configuration to enable and disable new feature preview items in demo

Systemic Solution: The feature preview should be added a s configurations in PROD/UAT so that only enabled features are available in PROD environment.

Gatekeeper: **Dev/Release**

Doubt: N/A
